PROFESSIONAL SUMMARY

Second-year BS Computer Science student (CGPA: 3.8/4.0) with experience building full-stack web and cross-platform mobile applications using Flutter, Laravel, and React. Interested in AI/ML and LLM-powered applications.

EDUCATION

COMSATS University Islamabad, Wah Campus

Sep 2024 – Present

BS Computer Science | CGPA: **3.8 / 4.0** | Expected Graduation: 2028

PROJECTS

FreelanceHub — Freelance Marketplace App | Flutter • Dart • Supabase • PostgreSQL

- Built a cross-platform freelance marketplace with bidding, milestones, contracts, and payment workflow.
- Developed a dedicated Admin app featuring KYC verification, dispute management, and announcements.
- Implemented Supabase Realtime, PostgreSQL triggers, Row Level Security (RLS), and secure document storage.

InterviewLens — AI-Powered Interview Coach | React 18 • TypeScript • Gemini API • Firebase

- Developed an AI-powered interview coach supporting voice/text responses.
- Integrated Gemini API to generate personalized feedback, STAR improvements, and job-fit analysis.
- Used Firebase Authentication and Firestore for secure user sessions and history.

AgriPulse — Smart Irrigation Scheduling System | HTML • CSS • JavaScript • Python • Greedy Algorithm

- Built a web-based smart farming tool that prioritizes irrigation across multiple fields based on real-time moisture levels with multilingual support
- Implemented a Greedy Algorithm ($O(n \log n)$) sorting fields from lowest to highest moisture, assigning irrigation slots to driest fields first — reducing water wastage and Dashboard shows field cards with moisture percentage, crop type, area, and status indicators (Critical / Moderate / OK); users control daily capacity via a slot system

BookVerse — Online Bookstore | Laravel 11 • PHP • MySQL • Blade • AJAX

- Built a fully-featured e-commerce bookstore with live AJAX search, category browsing, session-based cart, and Cash on Delivery checkout
- Developed a complete Admin Panel with sales dashboard (charts + stock alerts), book/category/order management, image uploads, and real-time stock control
- Implemented authentication, customer order history, and a book reviews & star ratings system using Laravel middleware for role-based access (AuthUser / AuthAdmin)

TECHNICAL SKILLS

Languages: Python, Dart, Java, TypeScript, JavaScript, PHP, HTML5, CSS3

Frameworks & Libraries: Flutter, React 18, Laravel 11, Vite, Tailwind CSS, Framer Motion, Express.js

AI / Data Science: Gemini API, Pandas, NumPy, Matplotlib, OpenAI API

Databases: PostgreSQL (Supabase), Firebase Firestore, MySQL

Tools & Platforms: Git, GitHub, Supabase, Firebase, Vercel, VS Code
